## INTERNSHIP COMPLETION CERTIFICATE

Date: 21/04/2024

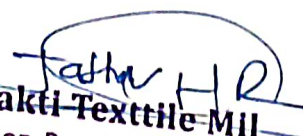

This is to certify that **Priyanka Raosaheb Wavare**, a student of **Master of Science (MSc) in Organic Chemistry**, has successfully completed a 20-day internship program at **Janshakti Textile Mills Limited** from 1<sup>st</sup> April to 19<sup>th</sup> April 2024

During this period, she was involved in various tasks and projects, including but not limited to:

- **Production of Threads by Cotton**

Priyanka exhibited a keen interest in learning and demonstrated a high level of commitment and professionalism in all assigned tasks. She displayed strong analytical skills, teamwork, and a willingness to take on challenges, which significantly contributed to the ongoing projects at our organization.

We wish Priyanka all the best in her future endeavors and are confident that she will be successful in her academic and professional pursuits.

## INTERNSHIP PROGRAM

**Academic Year**  
**2023-24**

Prepared by  
**DEPARTMENT OF COMMERCE**  
Arts, Commerce and Science College, Shevgaon

**Pravara Medical Trust's  
Arts, Commerce & Science College, Shevgaon  
Department of Commerce  
Internship Program Report (2023-2024)**

---

## 1. Introduction

This report provides a comprehensive overview of the internship program completed by students during the academic year 2023-2024. The internship experience is a critical component of our academic curriculum, designed to offer students practical, hands-on experience in their field of study. The goal is to bridge the gap between classroom learning and real-world applications, helping students gain valuable industry experience, develop essential skills, and enhance their employability.

This report outlines the number of students who participated, the types of industries and organizations involved, the overall success of the program, and key insights drawn from student feedback and performance evaluations.

## 2. Overview of Internship Program

The internship program for the 2023-2024 academic year was structured to provide students with exposure to various sectors, including but not limited to:

- **Technology and Software Development**
- **Business and Management**
- **Banking & Finance**
- **Marketing and Communications**

Internships ranged duration is 60 hours, with students working organizations. The program emphasized the development of soft skills (such as communication, teamwork, and problem-solving) as well as technical proficiency within their specific field. In view of this, Savitribai Phule Pune University has come up with a concept to provide 'Internship' to all students studying in semester V & VI across faculty of commerce

## 3. Participation Statistics

- **Total Number of Interns:** 58 students
- **Internship Fields:** 6 major sectors (Technology, Business, Healthcare, Banking, Marketing, )
- **Internship Duration:** 60 hours

### Gender Distribution:

- Male: 66%
- Female: 34%

## 4. Industry Partnerships and Host Organizations

Throughout the internship period, students were hosted by a variety of organizations, from large corporations to smaller startups. Some notable partners included:

- **Tech Giants:** Google, Microsoft, Apple, and IBM (Technology and Software Development)
- **Consulting Firms:** (Business and Management)
- **Creative Agencies:** (Marketing and Communications)

## 5. Student Feedback and Performance Evaluation

A key component of the internship experience is continuous assessment, both by the host organization and through student self-reflection. The following observations were drawn from feedback collected through surveys and performance reviews:

### Challenges Faced:

- **Workload Management:** Some students reported challenges in managing their workload, particularly during peak periods.
- **Remote Internships:** Some students participating in remote internships experienced issues with communication and collaboration due to time zone differences or lack of direct supervision.

### Employer Feedback:

- Employers were asked to evaluate the performance of interns in areas such as professionalism, technical proficiency, and teamwork. Key takeaways included:
  - Some of employers expressed satisfaction with the quality of student interns.
  - Students demonstrated strong technical knowledge but required additional training in soft skills, particularly in cross-functional team settings.
  - Several employers offered full-time positions or extended internships to high-performing students.

## 6. Key Achievements and Outcomes

- **Industry Networking:** students reported valuable networking opportunities that could aid in future job searches.
- **Academic Credit:** All students who successfully completed their internships earned academic credit toward their degree, with a final assessment based on the internship performance and reflective reports submitted.

## 7. Challenges and Areas for Improvement

While the internship program was largely successful, several challenges were identified that warrant attention:

- **Remote Internship Logistics:** Given the rise in remote internships, ensuring consistent engagement and mentorship remains a challenge. Some students reported feeling isolated without regular face-to-face interactions.
- **Industry Placement Process:** A number of students faced difficulties securing internships due to the competitive nature of placements. Streamlining the application process and improving guidance on internship search strategies could help mitigate this issue.

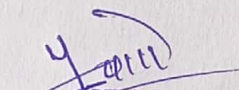

## 8. Recommendations for Future Internships

1. **Increase Employer Engagement:** Expanding the pool of internship providers, particularly in emerging sectors, will offer students more opportunities.
2. **Improve Remote Internship Support:** Implement a more structured mentorship program for remote internships to ensure consistent guidance and feedback.
3. **Enhanced Preparation Programs:** Provide pre-internship training on soft skills and cultural competency to better prepare students for global internships and cross-cultural collaboration.
4. **Expand Alumni Mentorship:** Establish a more formalized mentorship network using alumni who have gone through the internship program and can provide guidance and advice to current students.

## 9. Conclusion

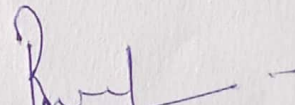

The internship program for the academic year 2023-2024 has been a resounding success, with students gaining invaluable work experience and demonstrating significant personal and professional growth. The collaboration between academic institutions, industry partners, and students has created a mutually beneficial environment that enhances the career readiness of our graduates. As we move forward, we aim to refine and expand the program to meet the evolving needs of students and industry partners alike.

This report will serve as a foundation for continuous improvement and will guide the development of the internship program for future cohorts.
