PMT'S, Arts Commerce & Science College,
Shevgaon.

Subject:- To grant permission for "ONE days" *Industrial Visit*...

Respected Sir,

As per above mention subject, Our Arts Commerce & Science College, Shevgaon. PG (M.Sc. Part-II Organic & Analytical Chemistry) Students wants to arrange One days Industrial visit in between dated 3rd April 2023. At Insta vision Lab and Services Satara, Raviwar peth Road, near Venutai B.Ed. College, Satara, Maharashtra, 415002.

So, we request you to grant us permission for industrial visit as soon as possible.

Thanking you.

Yours sincerely,

Head of Department (PG)

Notice

All students of the Post Graduate Department of Chemistry are hereby informed that, our Department will organize Industrial Visit at **Insta Vision Private Limited, Satara** on **03rd April 2023**. This visit aims to provide students with practical exposure to industrial processes and operations in the field of chemistry. All students should pay Rs.1500/- before 25 March 2023 to be Mr. Amol Kardile

Note: The Visit is compulsory to all students.

Post Graduate Department of Chemistry
Organized
Industrial Visit at Insta Vision Pvt. Ltd., Satara
Report

Details of the Visit:

- **Participants:** A total of 44 postgraduate students of the Chemistry Department participated in the visit.
- **Transportation:** A bus was arranged for transportation to Visit.
- **Duration:** One Day 3rd April 2023

Introduction:

An industrial visit was organized by the Post Graduate Department of Chemistry on 3rd April 2023 to **Insta Vision Pvt. Ltd., Satara**. Insta Vision Pvt. Ltd., located in Satara, in Maharashtra State. The purpose of this visit was to provide postgraduate students with practical insights into industrial operations, particularly in the domain of chemistry, and to bridge the gap between academic learning and industrial practices.

Objectives

1. To understand the real-world applications of chemical principles and techniques.
2. To observe the production, quality control, and research processes in a professional industrial setup.
3. To provide students with an opportunity to interact with industry professionals and enhance their knowledge.

Activities during the Visit

1. **Introduction Session:**
Students were welcomed by the Industry representatives, who provided an overview of the company's operations, vision, and mission.
2. **Various Department Visit:**
Students were guided through various sections of the facility, including:
 - **Quality Control Laboratory:** Understanding analytical techniques used to maintain product standards.
 - **Research and Development Department:** Learning about ongoing projects and innovations.
3. **Interactive Session:**
Industry experts shared their experiences, discussed career opportunities in the chemical industry, and addressed students' queries.

4. **Safety and Sustainability Practices:**

The company highlighted its commitment to environmental sustainability and workplace safety measures.

Outcome of the Visit

1. Students gained valuable insights into industrial workflows and chemical processes.
2. Enhanced understanding of the practical applications of their academic knowledge.
3. Improved awareness of career opportunities and skill requirements in the chemical industry.

Conclusion

The visit to Insta Vision Pvt. Ltd. was an enriching experience for the students of the Post Graduate Department of Chemistry. It not only provided practical exposure but also motivated students to align their academic pursuits with industrial needs.

Subject: - Permission to Organize a One day Industrial Visit to "Shodh Advantech
Aurangabad....

Respected Sir,

With the above mentioned Subject, Post Graduate Department of Chemistry of our college has planned to organize one day Industrial Visit at "SHODH ADVANTECH, Aurangabad. For this Industrial Visit 25 Students are to be appointed. This industrial visit, often referred to as industry for students, are an essential part the of academic curriculum in most of the graduate students.

Being interactive learning, such educational visit students' major exposure to real working environments along with practical perspective of a theoretical concept relevant to their domain.

Therefore, submit the detail Proposal for the Proposed by industrial visit.

Department of Chemistry
Organized
Industrial Visit on 21th March 2022
Report

Date: 21th March 2022

Organized by: Department of Chemistry

Participants: 25 Students of Graduate and Postgraduate Department Chemistry

Objective:

To Provide Student got information about the visit laboratory and understand the process of chemical equipment and industries. Also new equipment and related information received and get information about that and guided about the various career opportunities available in the industrial sector. Also, due to this industrial visit the student got guidance regarding future employment.

Overview:

The Industrial visit to the Shodh Advantech, Aurangabad aimed to industrial visit Student got information about the new equipment and its context. Also, due to this industrial visit the student got guidance regarding future employment. During the visit, laboratory and understand the process of chemical equipment and industries.

Also new equipment and related information received and get information about that and guided about the various career opportunities available in the industrial sector and then the students attended one days industrial visit workshop and due to this industrial visit, the student will be able to develop their skills in the futures job guidance.

Visit at Laboratories:

In this laboratory Dr.Rajani Mudkavi gave valuable guidance on the laboratory. Student were introduced to lab instrument for Analytical weighing balance are by information are analytical balances used in a pharma lab are used for extremely accurate and precise measurement. Then pH meter, pH meter is used to measure the concentration of hydrogenation ion.then Conductivity meter, Water bath, Muffle Furnace etc.

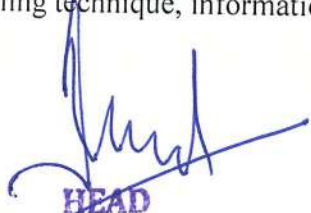

Visit at Advanced Analytical Instrument Laboratories:

In this Analytical Technique Dr.Yogesh Dalvi gave valuable guidance on the Analytical Technique Student were introduced to lab instrument for Analytical Technique for Gas Chromatography, High Performance liquid Chromatography (Thermo Separation), UV Spectrometer, Drying Oven , Fourier Transform infra-red spectroscopy etc.

Conclusion:

The visit provided the Chemistry Department Student with visit the laboratory and understands the process of chemical equipment and industries. The Chemistry Department extends gratitude Thanks to the Shodh Advantech, Aurangabad Head of Laborotary, Dr.Yogesh Dalvi and Dr.Rajani Mudkavi gives their informative presentation also give the instrumental handling technique, information about the new equipment and its context.

Department of Chemistry
Organized
Industrial Visit on 26th February 2019
Report

Date: - 26th February 2019

Organized By: - Department of chemistry

Participants: - Graduate Students of Chemistry

Objective:- To understand the operational work flow and technology used in sugar manufacturing. To gain insights into the production of ethanol and its chemical processes. To explore the roles of different departments, including engineering, chemical, civil and accounting. To observe safety protocols, inventory management, and labour management in an industrial setting.

Overview :-

The industrial visit to the Shri Rudheshwar Sahkari Sakhar Karkhana Li. Adinathnagar aimed to provide students with practical insights into the sugar manufacturing process, ethanol production, engineering applications, and various aspects of operations management within a sugar factory.

❖ **Ethanol Department:**

In the Ethanol Department, students learned about the conversion of molasses, a byproduct of sugar manufacturing, into ethanol. This process involves:

- **Fermentation:** where molasses is fermented to produce alcohol.
- **Distillation:** a purification process that separates ethanol from other impurities.
- **Quality Control:** the ethanol produced is tested for purity and concentration.

The department staff explained the importance of ethanol as a renewable fuel and how it contributes to the sustainability of sugar factories.

❖ **Engineering Department:**

The Engineering Department manages the machinery and infrastructure required for production. Students observed:

- **Boilers and Turbines:** which are essential for powering the factory.
- **Maintenance Practices:** regular maintenance and troubleshooting techniques were demonstrated.
- **Mechanical Workshops:** where parts are fabricated and repaired, ensuring continuous operation.

This department emphasized the importance of precision in engineering to maintain production operation.

❖ **Chemical Department:-**

The Chemical Department is critical in maintaining the quality and safety of sugar production. Key highlights include:

- **Quality Testing of Raw Materials:** such as sugarcane juice and molasses.
- **Chemical Analysis:** performed at various stages to monitor pH, sucrose content, and impurities.
- **Safety and Compliance:** adherence to safety standards to prevent chemical hazards.

Students learned about the analytical techniques used to ensure the quality of products and by products.

❖ **General Store:**

The General Store handles the inventory management of materials required for daily operations. Students observed:

- **Stock Management:** processes for tracking and ordering parts and supplies.

- **Record-Keeping Systems:** both digital and manual systems for managing stock.
- **Safety Measures:** storage practices, especially for chemicals and heavy equipment.

This section highlighted the importance of inventory accuracy and efficient stock management

❖ **Civil Department:**

The Civil Department oversees infrastructure and structural maintenance. The team discussed:

- **Building and Equipment Maintenance:** ensuring safety and durability of structures.
- **Construction Planning:** periodic expansion and upgrade of facilities.
- **Compliance with Industrial Standards:** to meet industry safety norms.

This department demonstrated how well-maintained infrastructure is crucial for safe operations.

❖ **Times Department:**

Times Department, students learned about the system of tracking employee attendance and shift timings. This includes:

- **Digital Attendance Tracking:** using biometric systems.
- **Shift Management:** organizing shifts to ensure optimal productivity.
- **Labor Laws Compliance:** maintaining records to meet labor law requirements.

The visit provided insight into how time management is vital in an industrial environment

❖ **Shetkari (Labor Welfare) Department:**

The Shetkari Department focuses on employee welfare. Key initiatives observed include:

- **Health and Safety Programs:** regular health checkups and safety training.
- **Employee Facilities:** canteens, rest areas, and recreational facilities.
- **Labor Welfare Schemes:** programs aimed at improving the quality of life for workers.

The visit emphasized the factory's commitment to creating a positive work environment.

❖ **Kamgar (Labor) Department:**

The Kamgar Department handles workforce management. Observations include:

- **Recruitment and Training:** onboarding of skilled laborers.
- **Workforce Allocation:** assigning workers based on skills and experience.
- **Conflict Resolution:** managing grievances and ensuring labor rights.

Students observed how proper labor management contributes to workforce efficiency.

❖ **Lekha (Accounts) Department:**

The Accounts Department is responsible for financial management. Key functions observed were:

- **Budgeting and Cost Control:** tracking operational expenses and revenue.
- **Payroll Management:** ensuring timely and accurate payment of wages.
- **Financial Reporting:** preparing reports for management and stakeholders.

Students gained insight into the financial aspects of running a large industrial setup.

❖ **Conclusion:**

The visit to Rudreshwar Sahkari Sakar Karkhana Limited was highly informative, providing students with practical knowledge across various domains such as engineering, chemical analysis, production, and employee welfare. Each department played a critical role in the factory's operations, and students appreciated the interdependence of these roles in achieving efficient and sustainable production.

The experience enriched the students' understanding of industrial practices and helped them see how theoretical knowledge is applied in real-world settings. We extend our gratitude to the factory management and staff for their cooperation and valuable insights shared during this visit.

❖ **Acknowledgments**

We would like to thank Rudreshwar Sahkari Sakar Karkhana Limited Adinathnagar and its management team for allowing us this opportunity. Special thanks to the faculty coordinators and staff members who organized and guided the visit.

Subject: - Request Permission for Field Visit to Krushi Vigyan Kendra,
Dahigaon-Ne...

Respected Sir,

With above mentioned subject, our College Department of Chemistry has planned to organize Field Visit for Graduate and Post Graduate Student of Chemistry at Krushi Vigyan Kendra Dahigaon-Ne (Ahmednagar-II). This visit will be organized in the third week of December.

This visit is aimed to providing the students with practical insights into agricultural science and modern techniques in crop management, soil and water conservation that complement our curriculum in Applied and Environmental Chemistry.

Therefore, we request you to please permit us to arrange the said field visit.

Thanking You!

Permitted

Date:-13/12/2022

Notice

All students of the B.Sc. and M.Sc. are hereby informed that our Department will organize Field Visit to to Krushi Vigyan Kendra Dahigaon-ne Ahmednagar-II on 17 December 2022 at 09:30 am. This visit will provide an opportunity to learn about various agricultural practices, soil and water analysis, and innovative farming techniques. The schedule of visit will be displayed on notice board. The visit is compulsory to all students. Students should be present in college at morning 09:00 am.

Important Notes:

- 1) College has made bus arrangement to reach destination.
(College to Krushi Vigyan Kendra Dahigaon-Ne)
- 2) Bring a notebook and pen for taking notes.
- 3) Student should bring tiffin and water bottle with them.
- 4) Follow all instructions from the faculty and KVK staff during the visit.

Department of Chemistry
Organized
Field Visit on 17th December 2022
Report

Date: 17th December 2022

Organized by: Department of Chemistry

Participants: Graduate and Postgraduate Students of Chemistry

Objective: To provide students with hands-on exposure to the practical applications of chemistry in agriculture and related fields.

Overview:

The field visit to the Krushi Vigyan Kendra Dahigaon-Ne aimed to familiarize students with the various departments at KVK, emphasizing the practical applications of their theoretical knowledge in real-world agricultural settings. This experiential learning opportunity also served to bridge the gap between academic concepts and their practical implications in the field of agriculture, helping students understand the interdisciplinary applications of chemistry.

During the visit, students had the opportunity to explore several departments within the KVK, each of which provided insight into various aspects of agriculture where chemistry plays a crucial role. The following departments are visited, along with their contributions and relevance to the student's field of study.

Agronomy and Crop Management

In this department, Mr. Narayan Nibe gave valuable guidance on crop management students were introduced to the science behind crop cultivation, growth stages, and yield optimization. The importance of fertilizers, pesticides, and herbicides was discussed, including their chemical compositions and their impact on soil and crop health. The department highlighted sustainable practices, including organic farming methods and the reduction of chemical inputs through integrated pest management, showing the importance of chemistry in developing environmentally friendly farming techniques.

Horticulture Department

The Horticulture Department showcased the methods of cultivation and post-harvest handling of fruits, vegetables, and ornamental plants. Students learned about plant nutrient requirements, preservation techniques, and the role of growth regulators and preservatives. The department explained the chemistry behind plant physiology and growth, with demonstrations on how various nutrients affect plant development. Mr. Nandkishor Dahatonde gave valuable information on Horticulture.

Entomology (Plant Protection) Department

This department Mr. Manik Lakhe educated students on pest management, focusing on the identification and control of common pests affecting crops. Students learned about insecticide formulations, the chemistry of active ingredients, and the processes involved in pest control application. The department also discussed the importance of understanding chemical residues in crops, demonstrating the balance required between effective pest management and food safety.

Plant Pathology Department

The Plant Pathology Department Mr. Prakash Hinge introduced students to disease management, focusing on the detection and control of plant pathogens such as fungi, bacteria, and viruses. Students observed the laboratory analysis methods used to diagnose diseases and learned about the chemical treatments applied to manage them. This session highlighted the importance of chemistry in disease diagnosis and treatment strategies, as well as in the development of disease-resistant crop varieties.

Soil & Water Testing Department

Mr. Prakash Bahirt Sir guided by Soil & Water Testing Department focused on soil health and fertility management, where students learned about soil sampling, testing, and analysis techniques. The department demonstrated the procedures used for analysing soil pH, nutrient levels, and moisture content. The students observed how these analyses directly inform recommendations for crop selection and fertilization, emphasizing the role of chemistry in sustainable agricultural practices.

Conclusion:

The visit provided the Chemistry Department students with a practical understanding of how chemistry intersects with agricultural practices. By interacting with experts from diverse fields, students gained insight into the chemical principles soil & water testing, crop management, horticulture, and pest control. The visit highlighted the necessity of chemical knowledge in various agricultural applications, reinforcing the interdisciplinary nature of their studies and its practical relevance.

The Chemistry Department extends gratitude Thanks to the Krushi Vigyan Kendra Dahigaon-Ne Head & Senior Scientist Dr. Sham Sunder Kaushik, staff of KVK Mr. Narayan Nibe, Mr. Manik Lakhe, Mr. Sachin Badhadhe Mr. Nandkishor Dahatonde, Mr. Prakash Hinge, Mr. Rahul Patil, Mr. Prakash Bahirat, Mr. Sagar Dhisale, Mr. Dattatry Vanjari, Mr. Anil Deshmukh for their informative presentations, hospitality, and for sharing valuable insights. Their guidance was instrumental in making this field visit a highly educational and memorable experience.

Department of Botany

Educational Tour to Agricultural Exhibition (Krushik)at Baramati

Report

Date: February 12, 2022

Introduction

The Commerce and Botany departments of Pravara Medical Trust Arts, Commerce and Science College, Shevgaon, organized an educational tour on February 12, 2022, to the agricultural exhibition held at Baramati. The primary objective of this tour was to provide students from the Commerce department with practical exposure to agro-business management and to familiarize Botany students with the latest advancements and innovations in agriculture.

Tour Group

A total of 34 students from the Commerce and Botany departments participated in the tour. Additionally, professors Mr. Sumit Pulate, Mr. Mohan Paratwagh, Mr. Somnsth Dhamal, and Ms. Sheetal Markad, Ms. Mohini Wavare guided and accompanied the students.

Main Attractions of the Exhibition

Modern Agricultural Technology:

For the Botany students, there were displays on various types of plants, new seed varieties, pesticides, fertilizers, and modern farming equipment. These exhibits allowed students to learn about new agricultural technologies and innovations.

Agricultural Products:

The exhibition showcased products made from different crops, helping students understand the importance of value addition in agriculture.

Agro-Business Management:

The exhibition included various displays related to agro-business management, particularly for the Commerce students. These displays featured agricultural equipment marketing, success stories of entrepreneurs, and information about different agribusinesses. This helped students gain a clearer understanding of agro-business management.

Principal
Arts, Comm. & Sci. College
Shevgaon, Dist Ahmednagar

Student Experiences

After the tour, students shared their experiences. They found the exhibition to be extremely beneficial as it provided insights into various aspects of agriculture. The students gained awareness of agro-business management and modern agricultural technologies.

Conclusion

The educational tour to the agricultural exhibition at Baramati proved to be a valuable experience for the students. It offered them both theoretical and practical knowledge. Similar tours should be organized in the future to provide students with new learning opportunities.

Department of Chemistry
Organized

Field Visit on 09th February 2020
Report

Date: 09th February 2020

Organized by: Department of Chemistry

Participants: 26 Students

Objective: To provide students with hands-on exposure to the practical application chemistry in agriculture and related fields

Overview:

The field visit to the Kamdhenu Krushi Seva Kendra Shevgaon aimed to familiarized students with the various departments at Kamdhenu, emphasizing the practical applications of their theoretical knowledge in real-world agricultural settings. This experiential learning opportunity also served to bridge the gap between academic concepts and their practical implications in the field of agriculture, helping students understand the interdisciplinary applications of chemistry.

During the visit, students had the opportunity to explore several departments within the Kamdhenu, each of which provided insight into various aspects of agriculture where chemistry plays a crucial role. The following departments are visited, along with their contributions and Relevance to the student's field of study.

Fertilizer storage

correct storage of fertilizer is important to ensure safety and security. Where possible, fertilizers should be stored in a closed, secure storage place to protect the product from the weather and reduce the risk of theft.

❖ **Ideal storage conditions**

- Enclosed building capable of protecting the product from the weather and especially direct sunlight.
- Clean environment, free of dust/dirt.
- Temperature between 5 and 30°C (some fertiliser types are sensitive to high temperatures)
- Protect the fertiliser from moisture, which can cause lumps and dust, influencing spreading capabilities

- Equipped with pallet racking to avoid the need for double stacking
- Good stock management e.g. carried out on a **First In, First Out** basis

❖ **Conclusion:**

The visit provided the Chemistry Department students with a practical understanding of how chemistry intersects with agricultural practices. By interacting with experts from diverse fields, students gained insight into the chemical principles crop management, horticulture, and pest control. The visit highlighted the necessity of chemical knowledge in various agricultural applications, reinforcing the interdisciplinary nature of their studies and its practical relevance.

The Chemistry Department extends gratitude Thanks to the the Kamdhenu Krushi Seva Kendra Shevgaon and their informative presentations, hospitality, and for sharing valuable insight their guidance was instrumental in making this field visit a highly educational and memorable experience.

Subject: - Permission for Guest Lecture...

Respected Sir,

With above mentioned subject, Department of Chemistry of our college has planned to organize Guest lecture on "**Organic Reaction Mechanism and Stereochemistry**" in Academic year 2022-2023. This Guest lecture will be organized in the first week of December. This Guest lecture helps students in Knowledge enhancement & characterizing organic compounds.

Therefore, we request you to please permit us to commence the said Guest lectures.

Thanking You!

Organized

Guest Lecture on Organic Reaction Mechanism and Stereochemistry

Report

Date: 02/12/2022

Time: 10:00 AM

The Department of Chemistry, Pravara Medical Trust's Arts, Commerce, and Science College, Shevgaon organized a guest lecture on "Organic Reaction Mechanism and Stereochemistry" on 2nd December 2022. Prof. Dnyaneshwar Ghodechor from MIT, Pune. The lecture aimed to enrich both undergraduate and postgraduate students with advanced insights into organic reaction and Stereochemistry.

The lecture began with an introduction by Mr. Amol Kardile, who welcomed the participants and introduced Prof. Dnyaneshwar Ghodechor (Department of Chemistry MIT, Pune). Mr. Kabir Inamdar (Head Department of Chemistry, PMT'S, ACSC Shevgaon) then extended his best wishes for the success of the lecture.

In the first session, Prof. Ghodechor elaborated on the various mechanisms underlying organic reactions. His explanations covered Substitution reaction, Elimination reaction, Addition reaction, SN1 and SN2 as well as complex mechanisms, providing students with a deep understanding of reaction pathways and intermediates.

The second session of the guest lecture focused on *Stereochemistry*, a fundamental aspect of organic chemistry that examines the spatial arrangement of atoms in molecules and its effect on chemical behavior and reactions. Prof. Dnyaneshwar Ghodechor this session with a structured approach that catered to both graduate and postgraduate students, deep understanding of stereochemistry concepts. Introducing the basic principles of stereochemistry, emphasizing its importance in both theoretical and applied chemistry fields, such as pharmaceuticals, agrochemicals, and materials science. He highlighted how stereochemistry impacts molecular interactions, biological activity, and the overall effectiveness of chemical compounds in real-world applications. Throughout the session, Prof. Ghodechor engaged students with interactive questions and real-life examples. The session concluded with a lively Question & Answer, where students asked questions related to stereochemical applications in industry.

The lecture provided a valuable learning experience for students, understanding and inspiring further exploration in organic reaction and Stereochemistry. The lecture concluded with a vote of thanks from Mr. Ramkisan Kedar, who expressed gratitude to Prof. Ghodechor for his time and valuable insights and dedicated efforts in enriching their knowledge.

Guest Lecture

Report

Date: 28/11/2022

Time: 10:00 Am

On 28 November 2022 at 10:00 am Department of Chemistry at Pravara Medical Trust's, Arts Commerce, and Science College, Shevgaon, organized guest lecture on the topic, "*Structure Determination of Organic Compounds*". Graduate and postgraduate chemistry students. The lecture aimed to deepen students' understanding of the methodologies used in organic structure determination.

The session began with an introductory speech by Mrs. Mira Dahifale, who provided an overview of the importance of structural determination in organic chemistry and introduced Dr. Ismail Shaikh (Department of Chemistry Shri Anand College Pathardi) to the attendees. Mr. Kabir Inamdar (Head Department of Chemistry, PMT'S, ACSC Shevgaon) conveyed his best wishes for the lecture.

The lecture was delivered by **Dr. Ismail Shaikh**, a distinguished expert in the field. Dr. Shaikh, known for his in-depth knowledge and vast experience, provided an engaging and comprehensive overview of various modern techniques and methods used in organic compound structure determination. His presentation covered essential analytical techniques such as Nuclear Magnetic Resonance (NMR) spectroscopy, Infrared (IR) spectroscopy, and Mass Spectrometry, shedding light on their applications in determining the structure and functional groups of organic molecules.

Throughout the lecture, Dr. Shaikh highlighted the importance of structural analysis in advancing fields like medicinal chemistry, materials science, and environmental studies. His clear explanations of complex concepts captivated the students, who eagerly participated in the interactive session. Dr. Shaikh also emphasized the practical implications of these techniques in real-world scenarios, enabling students to relate theory to practice.

The session concluded with a lively Question & Answer, where students posed insightful questions, further enhancing their understanding. The faculty members, as well as the students, expressed their gratitude to Dr. Shaikh for his invaluable insights and dedicated efforts in enriching their knowledge.

It provided students with foundation in organic structure determination techniques, essential for chemistry.

Report

Date: 18/02/2019

Time: 10:00 Am

On 18 February 2019 at 10:00 am Department of Chemistry at Pravara Medical Trust's, Arts Commerce, and Science College, Shevgaon, organized guest lecture on the topic "Rearrangement Reaction". Graduate chemistry students. The lecture aimed to deepen students' understanding carbon skeleton of molecule is rearranged to give a structural isomer of original molecule.

The session began with an introductory speech by Mr.Nalwade U.R, who provided an overview of the importance of Rearrangement Reaction and introduced Prof. Kande S.R (Department of Chemistry New Arts Commerce & Science College Shevgaon) to the attendees. Mrs. Funde S.A (Head Department of Chemistry, PMT'S, ACSC Shevgaon) conveyed his best wishes for the lecture.

The lecture was delivered by Prof. Kande S.R, a distinguished expert in the field. Prof. Kande, known for his in-depth knowledge and vast experience, provided an engaging and comprehensive overview of various Rearrangement Reactions. His presentation covered characteristics of reaction such as carbon- carbon sigma bond, one step or multi step and connecting to neighbour.

Throughout the lecture, Prof .Kande highlighted the Reactions such as pinacol-pinacolone rearrangement, Beckmann rearrangement and claisen rearrangement many more. Prof. Kande also emphasized the applications of Rearrangement reaction.

The session concluded with a lively Question & Answer, where students posed insightful questions, further enhancing their understanding. The faculty members, as well as the students, expressed their gratitude to Prof. Kande for his invaluable insights and dedicated efforts in enriching their knowledge. It provided students with foundation in Reaction mechanism in chemistry.

**Department of Commerce
Internship Program Report (2022-2023)**

Introduction:

The Department of Commerce conducted the T.Y.B.Com Internship Program for the academic year 2022-2023, aiming to provide students with practical exposure to real-world business operations. The initiative emphasized bridging the gap between academic learning and professional requirements by offering hands-on experience in various sectors like finance, Banking, marketing, manufacturing, human resources, and operations.

Objectives of the Internship Program

1. To enhance students' understanding of core commerce concepts through practical application.
2. To develop skills such as problem-solving, decision-making, and critical thinking in professional scenarios.
3. To build networks with industry professionals and understand workplace dynamics.
4. To prepare students for post-graduation employment or entrepreneurial ventures.

Structure of the Program

- **Duration:** The internship spanned 60 hours during.
- **Placement:** Students were placed in diverse organizations, Banking Sectors, including multinational corporations, small and medium enterprises.
- **Areas of Focus:** Financial accounting, taxation, marketing strategies, Administration, Operation, Customer Service, supply chain management, human resources, and digital commerce were the primary areas.

Activities Undertaken

1. **Financial Analysis:** Students worked on budgeting, financial reporting, and investment analysis.
2. **Marketing Projects:** Involved in creating social media campaigns, market research, and brand management.
3. **Human Resources:** Assisted in recruitment processes, employee engagement activities, and drafting HR policies.
4. **Operations Management:** Streamlined processes, managed inventory, and analyzed supply chain efficiency.

Learning Outcomes

- Enhanced understanding of professional etiquette and communication skills.
- Improved ability to analyse business scenarios and propose solutions.
- Exposure to software tools like Tally, MS Excel, and other ERP systems.
- Real-time experience in teamwork and leadership roles.

Feedback from Participants

Students reported high levels of satisfaction with the program, citing opportunities to apply theoretical knowledge to practical scenarios as the highlight. The internship fostered confidence and clarified career paths for many.

Challenges Faced

1. Limited placement opportunities in certain specialized fields.
2. Adapting to the corporate work culture initially posed challenges for some students.

Conclusion

The T.Y.B.Com Internship Program 2022-2023 was a resounding success, equipping students with the skills and knowledge necessary for their future careers. The Department of Commerce's continued efforts in enhancing the program are expected to further benefit upcoming batches. This initiative exemplifies the commitment to fostering holistic education and professional readiness among commerce students. There are 58 Students complete their Internship in the A.Y.2022-2023.

Department of Commerce
Internship Program Report (2021-2022)

Introduction

Savitribai Phule Pune University, Pune as per the Choice Based Credit System Syllabus 2019 organized by the, Department of Commerce T.Y.B.Com. Internship Program for the academic year 2021-2022. aimed to provide students with practical exposure to the corporate world. The initiative was designed to bridge the gap between academic learning and industry practices, equipping students with real-world skills and enhancing their employability.

Program Objectives

The key objectives of the internship program were:

1. To provide students with hands-on experience in various aspects of commerce and business.
2. To enhance their understanding of theoretical concepts through real-world application.
3. To develop professional skills such as teamwork, communication, problem-solving, and decision-making.
4. To establish industry connections and gain insights into corporate expectations.

Objectives of the Internship Program

The main objectives of the internship program were:

- **Enhance Professional Development:** Equip students with skills and experience that will enhance their career prospects.
- **Bridge the Gap between Theory and Practice:** Allow students to apply theoretical knowledge to real-world challenges.
- **Provide Networking Opportunities:** Enable students to build professional networks within their industry.
- **Encourage Career Exploration:** Allow students to explore different career paths and industries.
- **Foster Personal Growth:** Develop key personal attributes such as teamwork, communication, and leadership.

Structure of the Program

- **Duration:** The internship spanned 60 hours during.
- **Placement:** Students were placed in various organizations, Banking Sectors, including multinational corporations, small and medium enterprises.

- **Areas of Focus:** Financial accounting, taxation, marketing strategies, Administration, Operation, Customer Service, supply chain management, human resources, and digital commerce were the primary areas.

Activities Undertaken

1. **Financial Analysis:** Students worked on budgeting, financial reporting, and investment analysis.
2. **Marketing Projects:** Involved in creating social media campaigns, market research, and brand management.
3. **Human Resources:** Assisted in recruitment processes, employee engagement activities, and drafting HR policies.
4. **Operations Management:** Streamlined processes, managed inventory, and analyzed supply chain efficiency.

Learning Outcomes

- Enhanced understanding of professional etiquette and communication skills.
- Improved ability to analyse business scenarios and propose solutions.
- Exposure to software tools like Tally, MS Excel, and other ERP systems.
- Real-time experience in teamwork and leadership roles.

Feedback from Participants

Students reported high levels of satisfaction with the program, citing opportunities to apply theoretical knowledge to practical scenarios as the highlight. The internship fostered confidence and clarified career paths for many.

Challenges Faced

1. Limited placement opportunities in certain specialized fields.
2. Adapting to the corporate work culture initially posed challenges for some students.

Conclusion

The T.Y.B.Com Internship Program 2021-2022 was a resounding success, equipping students with the skills and knowledge necessary for their future careers. The Department of Commerce's continued efforts in enhancing the program are expected to further benefit upcoming batches. This initiative exemplifies the commitment to fostering holistic education and professional readiness among commerce students. There are 31 Students complete their Internship in the A.Y.2021-2022.

Subject: Internship Completion Certificate

Dear Madam/Sir,

I am happy to inform you that following students of your college have successfully completed the 'Sixty Hour's internship Programme' in this organization.

Sr.No.	Name of Students
1.	ADAMANE PRASAD JANARDHAN
2.	BABAR DINESH BALASAHEB
3.	BHAPKAR RAHUL RAJU
4.	FULMALI ARJUN SINAPPA
5.	GAJBHIV ANIKET RAMNATH
6.	SMITA SAHEBRAO KADAM
7.	PATIL MAYURI PRALHAD
8.	SHINDE CHAITALI DILIP

These students have been provided with adequate exposure and necessary hands-on training pertaining to their special subject.

I am confident that these students will perform effectively in similar type of organization.

I wish them every success in future endeavors.

Thank You,
